Details:	
Feedback	

Technical Questions & Comments

1. For design and testing a summary in the form of charts, tables and diagrams should be given. It can act as reference for future. How can we improve our tender specifications so that we can be sure that new installation conforms to IS 732

VIDYUT SURAKSHIT BHARAT ABHIYAN

Electrical safety in Residential, Industrial, Commercial facilities

General Comments about the subject and content of the training

1. Thanks to CAMTECH for organizing such very useful / practical things
2. Everything is very much clear.
3. The presentation is very nice, and the voice is very good metallic voice and the pronunciation also is excellent, expecting more such courses in future. Thank you
